

MONA.

DIGITAL MARKETING · LOS ANGELES

Logo Design **Presentation** Four Concept Directions

Prepared by Mona AI · June 3, 2026 · Confidential

CONTENTS

- A** Concept A — Pure Wordmark
- B** Concept B — Geometric M + Wordmark
- C** Concept C — Signal & Reach
- GPT** GPT Image Concept — Bold Confidence (OpenAI)
- ★** Creative Director Recommendation

CONCEPT A · GPT IMAGE 1.5 (OPENAI)

Pure Wordmark

Clean typographic identity. The name carries the brand alone — no icon required. Confident, corporate, timeless.

CONCEPT A
Pure Wordmark

GPT IMAGE 1.5 · OPENAI

Concept A — Pure Wordmark

The name is the brand.

MONA rendered in strong geometric sans-serif capitals in deep navy blue. "DIGITAL MARKETING" below in lighter weight uppercase with generous tracking. No icon. No decoration. Pure confidence.

Minimal

Corporate

Timeless

Versatile

STRENGTHS

- Scales perfectly from favicon to billboard
- Works in any color on any background
- Easy to reproduce in any medium
- Professional at first glance

CONSIDERATIONS

- Less differentiated — many agencies use wordmarks
- No icon = no standalone symbol for profile photos
- Relies entirely on font choice for personality
- May need iconmark companion for social media

Memorability		72
Versatility		92
Differentiation		58
Brand Personality		65

CONCEPT B · NANO BANANA PRO (GOOGLE)

Geometric M + Wordmark

A bold geometric M lettermark paired with the wordmark. The dual-peak M suggests growth, ascent, and forward momentum.

CONCEPT B

Geometric M + Wordmark

NANO BANANA PRO · GOOGLE

Concept B — Geometric M Wordmark

Growth made visible.

A stylized M formed by two sharp upward triangular peaks — evoking mountains, growth charts, and upward trajectory. Paired with "MONA" in bold modern sans-serif and "DIGITAL MARKETING" in

light weight. System approach: icon standalone for social, full lockup for print.

Growth

Geometric

Premium

Memorable

STRENGTHS

- M icon works as standalone profile photo
- Growth narrative built into the mark
- Strong at all sizes
- Premium, agency-caliber feel

CONSIDERATIONS

- Geometric M is common in tech/marketing
- Peaks concept shares territory with other brands
- Needs color lockup guide for variations

Memorability		82
Versatility		88
Differentiation		70
Brand Personality		80

CONCEPT C · NANO BANANA PRO (GOOGLE)

Signal & Reach

The M constructed from digital signal arcs. Tech-forward, dynamic, and directly communicates the digital marketing mission.

CONCEPT C
Signal & Reach

NANO BANANA PRO · GOOGLE

Concept C — Signal and Reach

Digital by design.

Three upward-rising signal bars or Wi-Fi arcs forming the letter M. Navy blue to electric blue gradient. Immediately communicates

digital, reach, and connectivity. The most "digital marketing" of all four concepts. Paired with clean geometric wordmark.

Dynamic

Tech-Forward

Digital

Energetic

STRENGTHS

- Instantly communicates digital marketing
- Most distinctive of the four directions
- Gradient adds energy and modernity
- Great for social media / video

CONSIDERATIONS

- Gradient complicates single-color print
- Wi-Fi arc metaphor may date over time
- Higher complexity = harder at very small sizes
- More competitive, less ownable over time

Memorability		78
Versatility		68
Differentiation		83
Brand Personality		76

GPT IMAGE CONCEPT · GPT IMAGE 2 (OPENAI)

Bold Confidence

OpenAI GPT Image 2 generated concept. A flowing continuous-line M that doubles as an upward growth arrow. The most creatively ambitious direction.

GPT IMAGE CONCEPT

Bold Confidence

GPT IMAGE 2 · OPENAI

GPT Image Concept — Bold Confidence

One mark. Infinite meaning.

A continuous flowing line that forms both the letter M and an upward growth arrow — the most conceptually layered of all directions. Navy

blue and sky blue two-tone. Paired with MONA in strong condensed uppercase and "Digital Marketing" in open tracking light weight.

- Distinctive
- Sophisticated
- Conceptual
- Premium

STRENGTHS

- Most original and ownable mark
- Double meaning (M + growth arrow) is memorable
- Sophisticated — signals premium agency
- Strong brand storytelling foundation

CONSIDERATIONS

- Continuous line may lose clarity at very small sizes
- Most complex — needs refinement by human designer
- AI concept, not final production asset

CREATIVE DIRECTOR REVIEW

Recommendation & Next Steps

Assessment across all four directions — brand fit, long-term viability, and execution readiness.

★ CREATIVE DIRECTOR RECOMMENDATION

Primary: Concept B — Geometric M

The Geometric M + Wordmark delivers the strongest balance of memorability, versatility, and brand story. The dual-peak M directly visualizes growth and ascent — which IS the MONA promise to every client. It provides a standalone icon for social profiles, a full lockup for documents, and a flexible system that grows with the agency.

The GPT Image Concept (Bold Confidence) is recommended as the direction to develop into a refined professional version — it has the highest brand personality score but needs a human designer pass to reach production quality.

PRIMARY DIRECTION

**Concept B —
Geometric M
Proceed to
professional
refinement**

DEVELOPMENT DIRECTION

**GPT Concept — Bold
Confidence
Commission human
designer to refine**

ARCHIVE

**Concept A — too
common
Concept C — dating
