

Dear Nataly,

I'm writing to share a full summary of the digital marketing work completed on **monaempoweryou.com** today, along with a strategic roadmap for the months ahead. Please review the highlights below and the attached interactive report — I'd love your feedback and approval to move forward with the next phase.

WHAT WE ACCOMPLISHED TODAY

- 1. Business Profile Updated** — Name set to "Mona Digital Marketing", city to Los Angeles, CA, phone (916) 473-3131, and a keyword-rich description live on the site.
- 2. LocalBusiness JSON-LD Schema** — Structured data injected into the site's <head> so Google recognizes Mona Digital Marketing as a verified professional service.
- 3. Blog Launched + 3 SEO Articles Published** — Three keyword-targeted posts are live: AI in Marketing, Social Media for Small Business, and Google Ads vs. Meta Ads.
- 4. SEO Meta Copy Written** — Keyword-optimized title tags and meta descriptions drafted for all 5 key pages, ready to paste into the Wix Dashboard.
- 5. Interactive Strategy Report Created** — A fully branded HTML report with live charts, a 90-day campaign plan, and an onboarding lead capture form (attached).

The 3 Strategic Priorities I'm Recommending

PRIORITY 1

Monthly SEO Content

2 blog posts/month targeting local Los Angeles keywords. I can write these autonomously.

PRIORITY 2

Lead Capture CRM

Embed the onboarding form into the site. Capture leads and follow up via Wix Contacts pipeline.

PRIORITY 3

Google Business Profile

Claim and optimize the GBP listing — the single highest-ROI local SEO action available.
